

FPTOWER D3: SKY - HIGH - FREE

DIVE DIVE DIVE

Fundraising Event to restore the Frying Pan Tower - June 10-15, 2019

The Frying Pan Tower is a Coast Guard Light Station located 34 miles off the coast of North Carolina is being restored for our future generations. This restoration is supported by FPTower Inc., a federally registered 501(c)3 nonprofit with the goal of making this amazing piece of American history last well into the next fifty years.

The D3 event is a sky, high and free diving experience during the week of June 10-15th, 2019. FPTower Inc. is hosting this unusual and unique event to bring awareness to our restoration efforts. Over the course of a week, we will host:

SKY DIVERS who will jump out of a perfectly good airplane from approximately 10,000 feet above the tower and attempt to land on the yolk of the egg on the helipad 90' above the ocean!

HIGH DIVERS who will jump off the tower from 65', 90' and possibly 130' into the clear blue waters surrounding us!

FREE DIVERS who will compete for gathering "gold" coins from the sea floor 55' under the surface below us!

This amazing event will be captured on various media forms including live streams as they happen. Rescue crews will be deployed to insure the safety of all the participants and local boaters are encouraged to come out and watch it for themselves live and in person from their seaworthy vessels!

We are inviting sponsors to participate in our restoration effort with a commitment to financial, material or sweat equity in our FPTower D3 Event. There are a variety of sponsorships available, each having its own specific benefits for your organization.

To sign up for a sponsorship simply contact us and we will send you a liability waiver form, invoice (if appropriate) and nonprofit tax benefit form. Your participation will be coordinated with communications from and guidance by, your assigned FPTower crew member.

Thanks for your support of the Frying Pan Tower's restoration and awareness program!
